

HAND LUGGAGE

For your own comfort and to guarantee thepunctuality of our flights, please take the following recommendations into account.

| Allowed Size | Flights | Economy | Business |
|---|--|------------|-------------|
| | Domestic, Canary Islands, Europe, Middle East and Africa | 10 kg max. | 14 kg max. |
| | Long Distance | 10 kg max. | 18 kg total |
| <p>For all flights</p> <p>As well as a suitcase, each passenger may carry one item from the following list: an attache case, a handbag, a small briefcase, a laptop or a Tablet</p> | | | |

If you are travelling with a baby you can also carry a bag with food, drink and other articles needed for the baby during the flight.

If the measurements or weight of your hand luggage exceed the maximum allowed, the suitcase will have to travel in the hold and additional charges may be payable.

Because of space limitations in the cabin luggage lockers, even if your luggage complies with the limits on size and weight, our staff may consider it necessary to store it in the hold at no extra cost to the passenger.

Liquids

The transport of liquids in hand luggage (drinks, cologne, creams, gels, etc.) is restricted: only containers with a maximum content of 100 millilitres are allowed.

Passengers must put these containers in a self-sealing transparent plastic bag (20 cm x 20 cm approximately) which is separate and available for inspection.

INFORMATION

Documentation

Remember to take with you the documents required for your trip. It is your responsibility to provide current and valid documents for your flights.

Boarding Pass

You must carry the boarding pass, printed on physical paper or on an electronic medium. You can also pick it up at check-in desks.

Punctuality

If you DO NOT have to check in baggage you can go to the boarding gate with the boarding pass, 60 minutes prior to departure for intercontinental flights and 45 minutes for all domestic and European flights.

Additional Information
